PROFILE

Hardworking College Student seeking employment, with excellent frontend web development skills. As a passionate and dedicated individual with a strong interest in frontend development, I have honed my skills through self-study and personal projects. I am eager to contribute my skills and dedication to a dynamic team and make a positive impact in the field of frontend development.

PROJECTS

Personal Portfolio Website

As a frontend web developer, I have designed and developed a personal portfolio website to showcase my skills, projects, and achievements.

ComicKaze

ComicKaze is an ecommerce website built on wordpress by me as a freelancer. It specializes in selling anime merchandise. This platform offers a variety of products related to anime culture, catering to anime enthusiasts and collectors.

Aquaregia

Designed and developed a website for your college fest, Aquaregia. This website serves as a digital platform to promote the event, provide information about its various activities, and engage with the audience.

Pixelicons

Pixelicons is a website that offers custom folder icons for Windows, allowing users to personalize their PC by changing the default folder icons to match their style preferences.

QR Generator

Created a sleek and user-friendly QR Generator website to demonstrate my UI design skills. This platform enables users to encode text into QR codes effortlessly. It serves as a practical tool while also showcasing my proficiency in designing intuitive user interfaces
